

AVIZVA

A Healthcare Technology Organization

We Harness Technology
That Enables Healthcare Enterprises
To Enhance Care

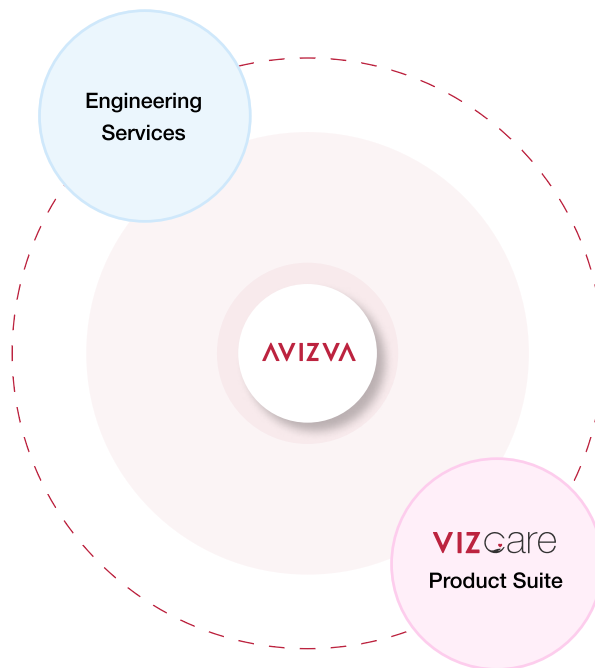

About Us

We are a **Healthcare Technology Organization** that harnesses technology to simplify, accelerate, & optimize the way healthcare enterprises deliver care. Established in 2011, we have served as strategic enablers for healthcare enterprises, helping them enhance their overall care delivery.

With over 15 years of expertise, we have engineered more than 150 tailored products for leading Medical Health Plans, Dental and Vision Plan Providers, PBMs, Medicare Plan Providers, TPAs, and more. AVIZVA possesses a deep understanding of the unique business needs and industry challenges faced by healthcare organizations.

Leveraging our rich industry experience and technology expertise, we have introduced VIZCare : A suite of products designed to address a multitude of common healthcare challenges, built on a highly innovative, distributed, scalable, and secure technology platform. With quality engineering services that can turn your ideas into reality quickly, and a rich suite of healthcare products that can accelerate your speed to market, we believe we can help enable Decent to realize its business vision.

- ▶ Dependent Care Flexible Spending Account (DCFSA)

Specialty & Niche Products

- ▶ Legal Insurance
- ▶ Identity Theft Protection Insurance

Technology

Behind our pioneering offerings is an extraordinary team of experts that include Architects that have engineered Robust Standardised Enterprise Architecture. Our technology expertise solidifies with the presence of Diverse Technology Practices that have come together to deliver : Cloud Based Solutions, Experience Products, Integration Products, Enterprise Services, AI/ML Innovations, Infrastructure Solutions, DevOps Expertise & Test Automation Engineering.

People Focused Culture

We foster a people-focused culture and encourage continuous growth and learning in our organisation. We have designed and implemented several Learning and Development programs to help our team level up their capabilities and skill sets. In an attempt to give rise to young leadership, we have set up an in-house career development initiative.

Our Enablers

Learning By Innovation

We take pride in inculcating an innovative spirit in the organisation through our 'innovation groups' where young minds develop solid technological foundation that empowers them to build trailblazing technology products.

Product & Project Management

We continually evolve & enhance our learnings to ensure a seamless requirement understanding, analysis that is fundamental to product engineering & development. We follow Agile Practices, ensuring on-time and effective product development & delivery.

Battle Tested Engineering Services

We have four specialized practices that define our engineering expertise

Artificial Intelligence

We help you unlock the transformative power of diverse AI technologies to elevate every facet of healthcare delivery. From automating routine consumer queries with Generative AI, to analyzing complex health records via Document AI, and delivering personalized health insights through Predictive AI, our experts seamlessly integrate intelligent automation into your healthcare ecosystem.

Our AI solutions are built with deep healthcare domain awareness, designed to tackle the industry's unique challenges effectively. With strict adherence to HIPAA and PHI compliance, we ensure sensitive data privacy and security throughout every stage of implementation.

Microservices

To scale your technology ecosystem with a robust data foundation, we develop high-performance data microservices tailored to your unique business requirements.

Our differentiated approach accelerates delivery while ensuring quality and consistency at scale. Leveraging pre-built API templates, you can save months in API design and definition. These templates address core healthcare enterprise needs, including Claims Data, Member & Eligibility, Provider Network, Billing & Payments, Regulatory Compliance, and more.

Interoperability

Built on next-generation, robust architecture, our interoperability solutions expertly manage diverse healthcare data - including claims, eligibility, benefits, accumulators, and prior authorizations - across industry-standard formats such as HL7, CCDA, FHIR, EDI X12, IHE, DICOM, NCPDP, ICD-10, and QRDA.

Our interoperability experts deliver solutions that provide real-time visibility and control over your enterprise data as it flows seamlessly between systems, all while upholding the highest standards of data protection and compliance under HIPAA and PHI regulations.

Portals

Whether you need intuitive portals for internal teams or consumers, we specialize in user-friendly solutions spanning Consumer Experience, CRM, Data Integration, and Benefits Configuration. Our scalable, robust platforms centralize information and actions, delivering personalized experiences across web and native applications.

With secure third-party integrations and strict HIPAA/PHI compliance, we ensure top-tier data privacy and operational excellence.

Long-Term Partnerships, Built On Trust

At the heart of AVIZVA's approach lies a philosophy of enduring collaboration.

We are strategic partners who align with your long-term goals. With multi-year associations with leading healthcare organizations, our track record acts as a testament to the trust and credibility we've earned. From conceptualizing technology roadmaps to scaling solutions over time, we work alongside you to drive sustained growth and realize your business vision.
