

The image features a solid red background. On the left, there is a large white circle with a subtle gradient. Inside this circle, the word "AVIZVA" is written in a bold, red, sans-serif font. To the right of the circle, there are several concentric, semi-transparent red arcs that create a sense of motion or a stylized signal. The text "A Healthcare Technology Organization" is positioned to the right of the circle, and the website address "www.avizva.com" is in the bottom right corner.

AVIZVA

**A Healthcare
Technology Organization**

connect

VIZcare connect

A Healthcare Data Connectivity Platform

Designed To Address The End-to-end Data Integration & Interoperability Needs Of Healthcare Enterprises

Real-time Data Orchestration & Synchronization

Seamlessly supports diverse protocols, uses AI to smartly map, configure, and optimize data

Healthcare APIs

A Robust Suite of 300+ APIs Powering Interoperability, AI, and Applications

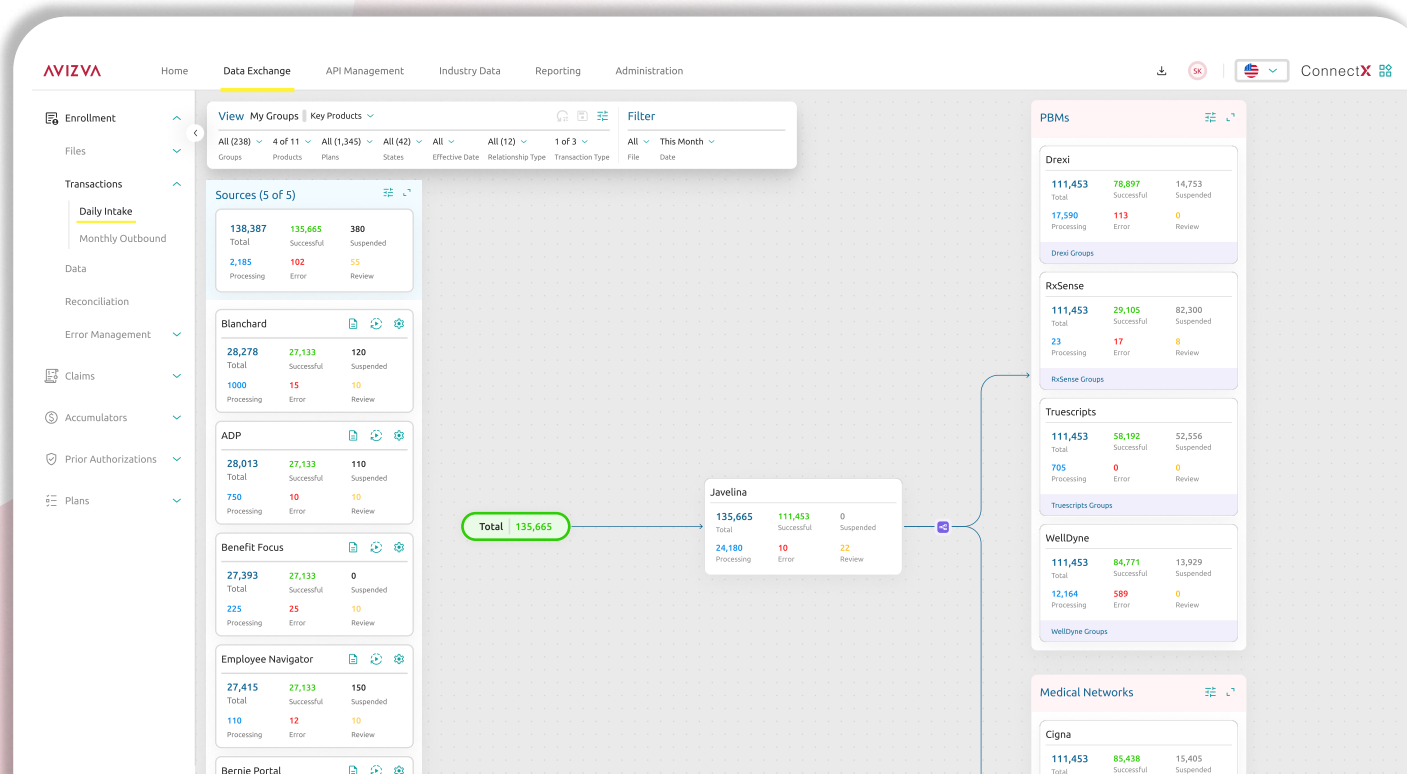

Healthcare Industry Data

Preloaded, Continuously Updated Public Healthcare Datasets

A First of Its Kind of Platform with Unmatched Visibility & Transparency

Provides full real-time visibility into data movements, dependencies, and bottlenecks, empowering informed decision-making and ensuring efficient management across the entire data lifecycle.

A Robust Suite of 300+ Healthcare APIs

Designed to accelerate your internal product development
and unlock enterprise-grade innovation at scale

Group & Employer

- Get BU Hierarchy
- Get all Products and Plans
- Get Reports

Plan & Benefits

- Get Plan Benefits
- Get Plan Documents
- Get Reports

Enrollment & Census

- Submit a new Enrollment
- Get all Enrollments
- Approve/Reject Enrollment

Member & Coverage

- Add Dependent
- Update Demographic Information
- Get Policy Details

Accumulator

- Get Member's Accumulators
- Financial
- Services Consumed

Claims

- Get All Claims
- Get EOB, EOP and other documents
- Submit a new Claim

Pre-Authorization

- Enrollment Get All Prior Authorizations
- Submit a new Prior Authorization
- Update approval Status

Invoice & Payment

- Get Plan Benefits -Get Check Register
- Get Payment Summary
- Bulk Update Payment Statistics

Broker & Agency

- Get all Agencies
- Get all Brokers within an Agency
- Update Broker Status

Quote & Sales

- Submit a new Quote Request
- Get Quote
- Get Proposal

Commission

- Get Commission Summary
- Get Commission Statement
- Get Commission Documents

Provider & Network

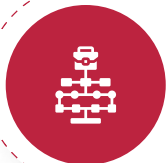

- Get Providers within A Network
- Get Provider's Details
- Get Provider's Affiliations

A Robust Suite of 300+ Healthcare APIs

VIZcare
connect

Designed to accelerate your internal product development
and unlock enterprise-grade innovation at scale

Built-in Business Logic & Real-World Workflow Support

APIs incorporate business rules, data interdependencies, and healthcare-specific logic, ensuring accurate, context-aware transactions. Supports transaction integrity across payer, provider, and regulatory ecosystems.

Security & Compliance

Includes all HL7 FHIR APIs, enabling CMS interoperability and compliance with federal regulations. Ensures secure, structured data exchange across healthcare networks, payers, and regulatory bodies.

Powering Interoperability, AI, and Enterprise Applications

A modern, scalable, and secure API layer that acts as a business catalyst - driving seamless integrations, intelligent workflows, and powerful application-led use cases across your healthcare enterprise.

Preloaded & Continuously Updated Healthcare Industry Data

VIZcare
connect

Provides an enriched, ready-to-use dataset that complements enterprise data, enabling enhanced analytics, decision-making, and AI-driven insights

Provider Data

Practitioners & Facilities

A reliable and comprehensive repository of provider data sourced directly from CMS NPPES, PECOS, and other regulatory authorities.

- ▶ National Provider Identifiers (NPIs)
- ▶ Practitioner Taxonomies & Specialties
- ▶ Practice Locations & Contact Details
- ▶ Affiliations & Hospital Privileges
- ▶ Medicare & Medicaid Participation Status
- ▶ Credentialing & Licensing Information

Healthcare Code Sets

Standardized Medical, Billing, & Drug Codes

Eliminating the hassle of manual code management with a preloaded library of trusted healthcare code sets

- ▶ CPT (Current Procedural Terminology) Standard codes for medical services & procedures.
- ▶ ICD-10 (International Classification of Diseases) Diagnostic codes for medical conditions.
- ▶ HCPCS (Healthcare Common Procedure Coding System) Standardized coding for medical supplies, equipment, and services.
- ▶ DRG (Diagnosis-Related Groups) Used for hospital reimbursement and case-based payments.
- ▶ NDC (National Drug Code) Identifiers for prescription and OTC medications.
- ▶ GPI (Generic Product Identifier) Hierarchical drug classification system for pharmacy claims processing.

Network Data

Payer & Provider Network Information

Includes the details on publicly available information that includes Payer-Specific Provider Participation in Networks, Reimbursement Rate Structures for Specific Networks, Provider Group Contracting Details and Tiering & Plan Participation Information.

- ▶ National PPO
- ▶ Regional PPO
- ▶ Provider Directory
- ▶ Pricing, Contract & Transparency Data

Preloaded & Continuously Updated Healthcare Industry Data

VIZcare
connect

Provides an enriched, ready-to-use dataset that complements enterprise data, enabling enhanced analytics, decision-making, and AI-driven insights

- ▶ Automatically validate and enhance incoming transactions with industry-standard reference data.

- ▶ Reduce the effort needed to ingest and process foundational healthcare data.

- ▶ Keeps datasets updated at the frequency recommended by authoritative sources, ensuring accuracy and reliability.

360° Data Views for Business & Operational Intelligence

VIZcare
connect

Delivers end-to-end visibility across all systems and touch points, providing real-time insights and analytics to drive scalable, accurate, and efficient healthcare operations.

The screenshot displays the AVIZVA Data Exchange interface. The top navigation bar includes links for Home, Data Exchange, API Management, Industry Data, Reporting, and Administration. The left sidebar lists various data categories: Enrollment, Files, Transactions (with sub-items Daily Intake, Monthly Outbound, and Data), Reconciliation, Error Management, Claims, Accumulators, Prior Authorizations, and Plans. The main content area shows a 'Medical Plan Views' section with filters for Groups, Products, Plans, States, Effective Date, Relationship Type, and Transaction Type. Below this is a table with columns for TIM(s), Core, and Response, showing counts for Total, Successful, Processing, Error, Business, System, Review, and Suspended. The 'Error' count is highlighted in red. Below the table is a search bar and a list of filters. The bottom section is a table with columns: Memb..., Name, DOB, Plan, Address, Postal C..., Relation..., Source, Run, and State. The table contains five rows of data.

Memb...	Name	DOB	Plan	Address	Postal C...	Relation...	Source	Run	State
12345...	Terence	04-25-19...	Silver 25...	100 Mark...	17011	Self	ADP	Planload7

34567...	Jim John...	10-20-19...	Permane...	300 Oak...	17102	Self	ADP	Plan	
12345...	James S...	03-12-19...	Select Va...	101 Main...	12345	Self	ADP		
23456...	Sarah Jo...	03-28-19...	Open AC...	202 Broa...	67890	Self	ADP		

Offers full visibility into how data flows through your enterprise, across every system, entity, and touchpoint. It is designed to streamline healthcare operations by offering real-time visibility, robust analytics, and business-centric insights across systems. Built for scalability, it supports millions of transactions while ensuring data accuracy, consistency, and operational efficiency.

360° Data Views for Business & Operational Intelligence

Real-Time Operational Transparency

Monitor the flow of transactions as they happen. Instantly identify bottlenecks, track dependencies, and detect issues before they escalate—enhancing operational decision-making and ensuring regulatory compliance.

Error Resolution

Identify and correct data inconsistencies directly within the unified view. Updates propagate automatically across all linked systems, ensuring clean, consistent, and trustworthy enterprise data.

Entity-Centric Business Views

Access interconnected views of key healthcare data types—Members, Providers, Plans, Claims, Prior Authorizations, and Groups. View each entity's full lifecycle, including historical transactions like coverage changes, claim adjudications, and authorizations, all in one place.

Cross-System Correlation & Insights

VIZcare Connect intelligently correlates data from across disparate systems to deliver 360-degree insights. This empowers teams to perform reporting, auditing, and monitoring with confidence and clarity.

Discrepancy Resolution For Data Accuracy

Identify and correct data inconsistencies directly within the unified view. Updates propagate automatically across all linked systems, ensuring clean, consistent, and trustworthy enterprise data.
